I have lived and studied in Toronto, Canada for more than twenty years where I started playing golf at the age of 16. I am certified Golf teaching Professional Class A. I have great passion in golf and I believe that you have to enjoy the game in order to play well. I love to work with my student to develop a unique training program to achieve their own personal goals and expectations. As a golf teaching professional, I have specialise in Applied Functional Science to design efficient body movement training and tailor made programs for each individual student so that they can have both success and fun on the golf course.
