

GEO Report for 2022 AGM

It was a challenging year for every golfer. Not much golfing opportunity due to the lockdown from Jan to April this year so basically, we only have 8 months for golf in this fiscal year. KSC has been restricted our bookings to one per month for the year 2022. However from 2021 April to 2022 April, we still manage to have 15 events compare to the 9 events in the previous fiscal year. Also, thanks to Ian's effort, we have been able to play at Hong Kong Golf Club this year!

We have also changed the social events priority that will be given those members who apply to play in an event and have played the fewest HKFC GS events in the current calendar year.

This is the last year for me to speak as a Golf event organizer. I will be stepping down by this October and there will be a new GEO to take over my place. Throughout these four years, there are a lot of enjoyment and fun, watching a lot of good shots and bad shots. One of the fun part of organizing these events are to see the creativeness of excuses of some members not showing up, majority of them told me at the golfing day when it's raining. I did the stats on the excuses, muscle pain is the most common one following with diarrhea. Anyway, I enjoyed these four years for organizing and thank you for all your support! I will see everyone on the golf course real soon.
